

Every stand checked. Every problem fixed. **With proof.**

The inspection app for stadiums, concession operators, restaurant groups and events.

THE PROBLEM

Event day. 100+ stands. One inspector and a clipboard.

Notes get lost

Paper gets wet, greasy and left in a truck. The problem you saw at 6 PM is gone by Monday.

Nobody knows if it was fixed

"Done" by text, no photo. The same cooler is warm again next event.

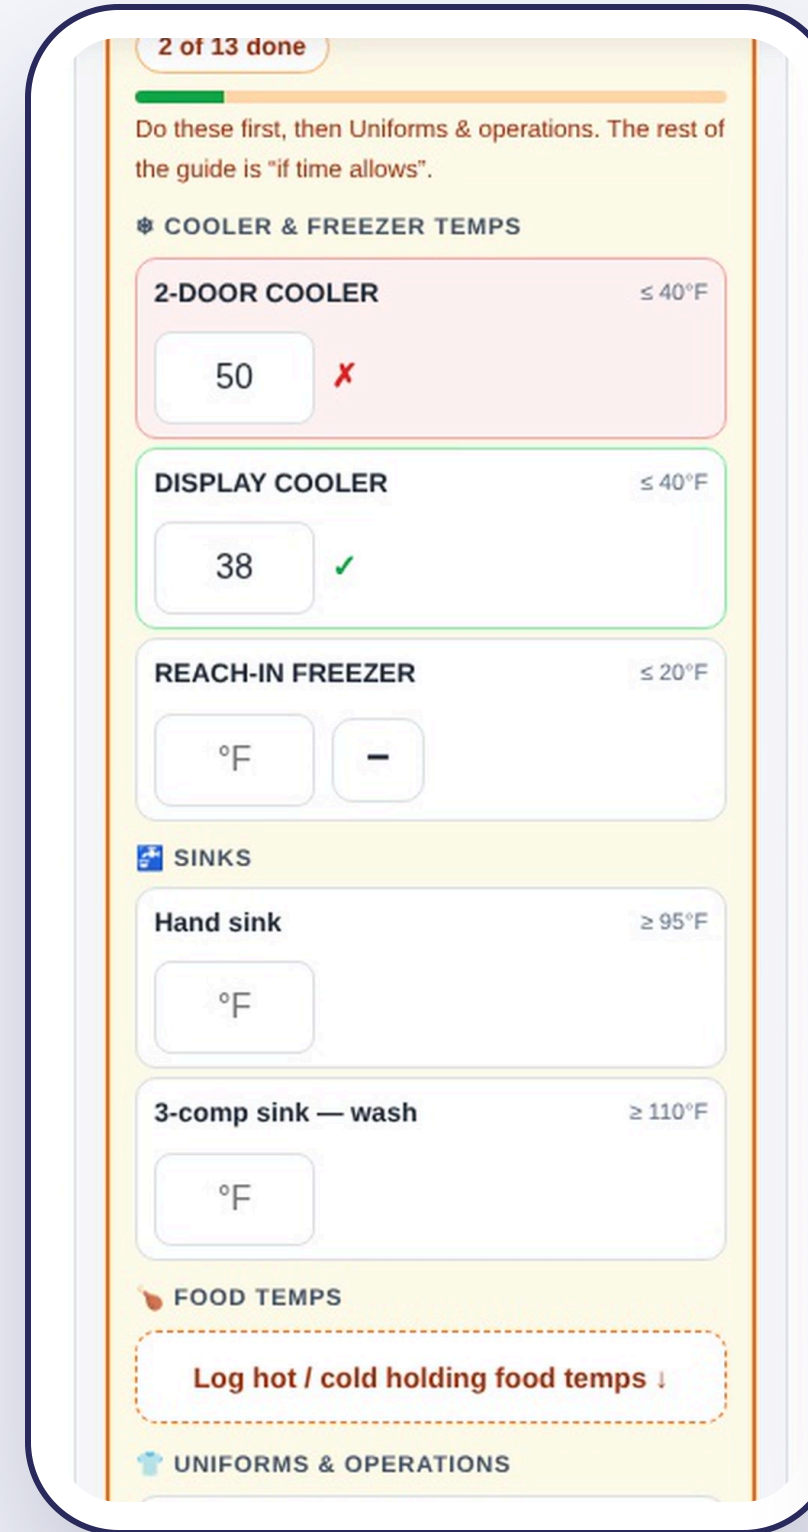

Stands skip the temp log

HACCP sheets filled in at the end of the night, or not at all. You find out at the audit.

WALK IT

A full inspection on one phone

- ✓ **One temperature rule** for everyone: coolers $\leq 40^{\circ}\text{F}$, freezers $\leq 20^{\circ}\text{F}$, hand sinks $\geq 95^{\circ}\text{F}$. A bad reading is flagged the second it is typed.
- ✓ **Problems with proof:** what is wrong, where, and a BEFORE photo, in a few taps.
- ✓ **The inspection type sets the focus:** event day puts temps and uniforms first, post-event puts cleaning and inventory first.
- ✓ **Saves every tap** on the phone, even with no signal.

2 of 13 done

Do these first, then Uniforms & operations. The rest of the guide is "if time allows".

❖ COOLER & FREEZER TEMPS

2-DOOR COOLER $\leq 40^{\circ}\text{F}$

50 ❌

DISPLAY COOLER $\leq 40^{\circ}\text{F}$

38 ✅

REACH-IN FREEZER $\leq 20^{\circ}\text{F}$

°F —

🔧 SINKS

Hand sink $\geq 95^{\circ}\text{F}$

°F

3-comp sink — wash $\geq 110^{\circ}\text{F}$

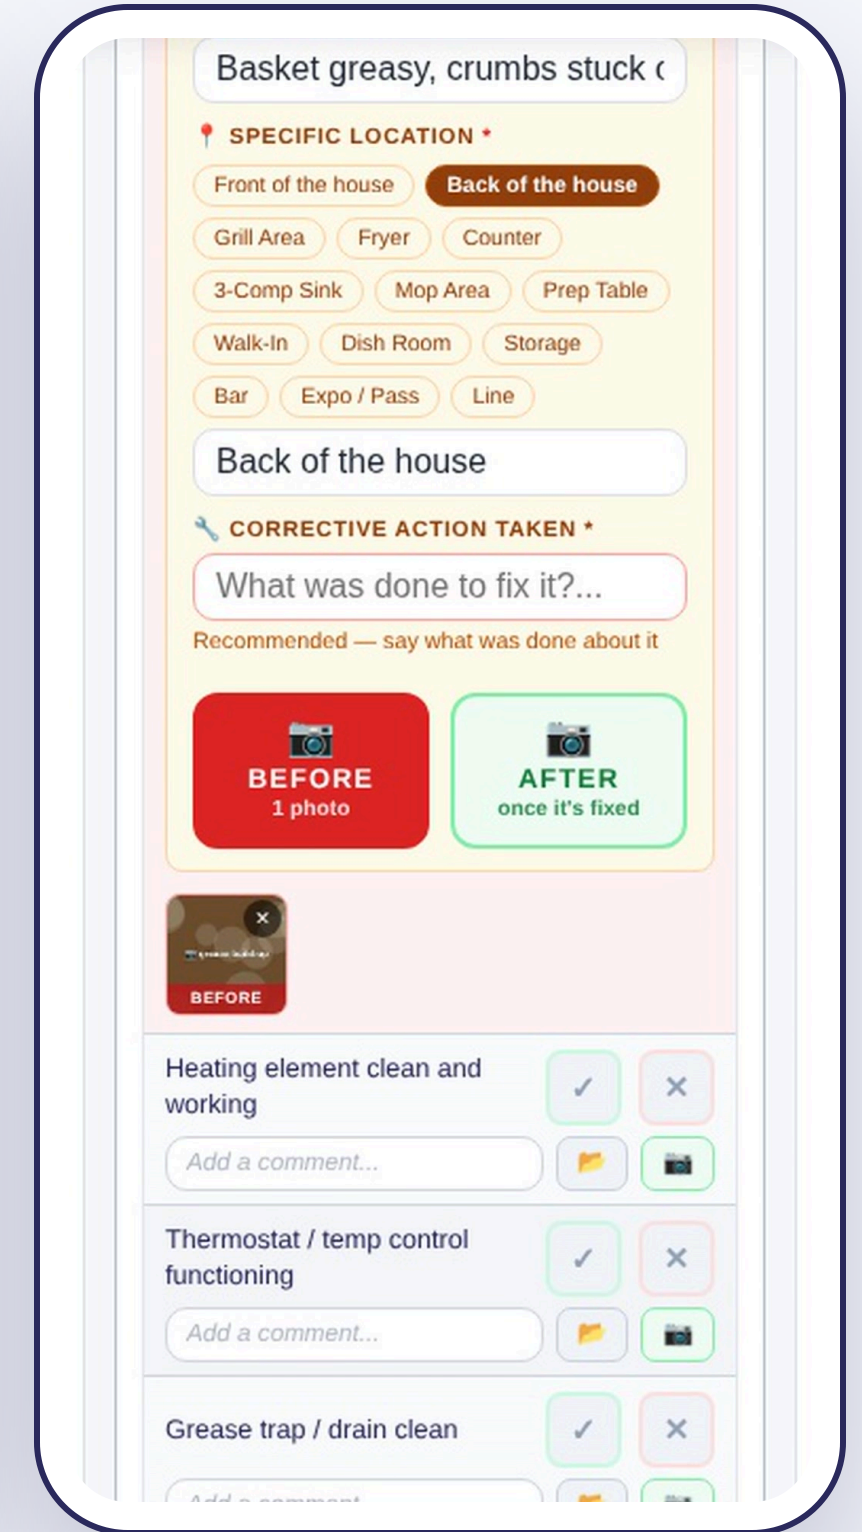

°F

STAND TEAMS

Stands log their own temps with one scan

- ✓ One QR poster per stand. No app to download, no password.
- ✓ Supervisors log hot and cold holding, coolers and freezers. A bad reading asks **what they did about it**, and it reaches the inspector right away.
- ✓ They can also **ask for supplies** and **report a problem** with a photo.
- ✓ English, Spanish and Haitian Creole.

English Español Kreyòl

HACCP Temperature Log

Please identify yourself before submitting temperatures

MAGIC CITY DOGS · Unit #114 CONCESSION

✓ Today's log: 1 check — last at 10:30 AM by Maria P.. You can add another check.

FIX IT

Crews close problems with an AFTER photo

- ✓ **Maintenance, cleaning and chemical crews** each get their own board from a link. No badge, no password.
- ✓ One card per problem, with the BEFORE photo and the place.
- ✓ **I'm working on it → Done + AFTER photo.** The inspector sees it fixed, with the time.
- ✓ Wrong crew? **Not mine → move** sends it to the right one.

The crew's board

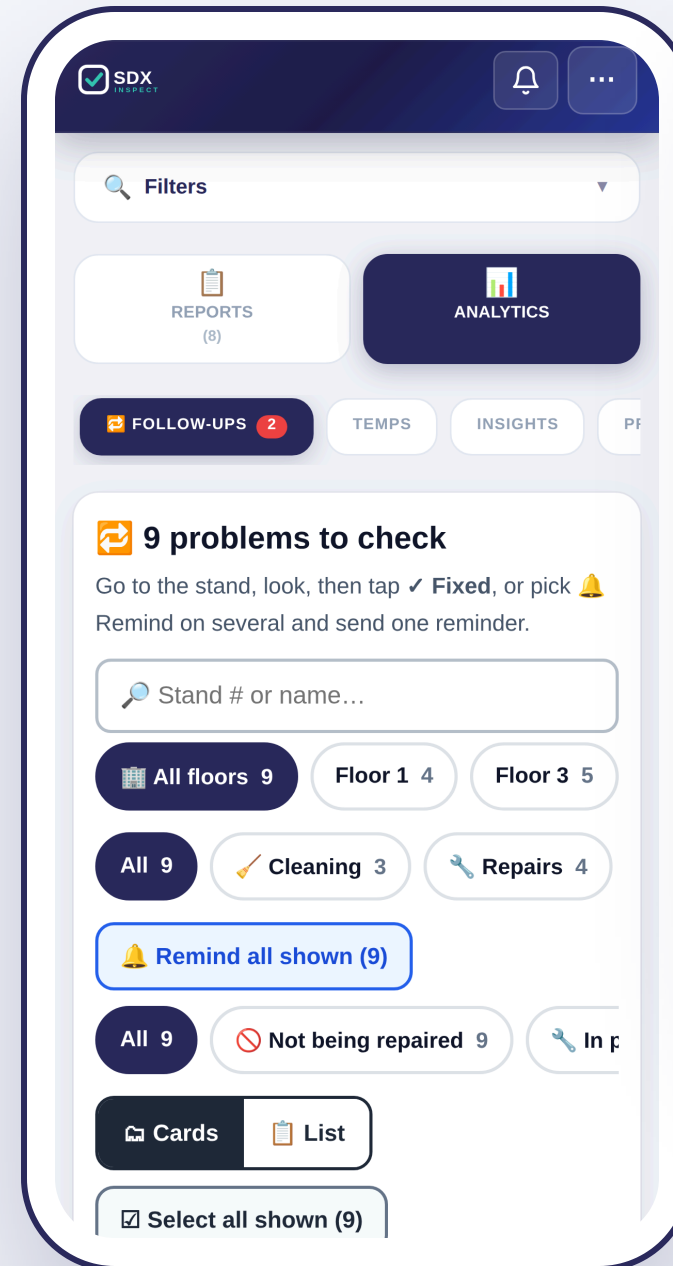

Done + AFTER photo

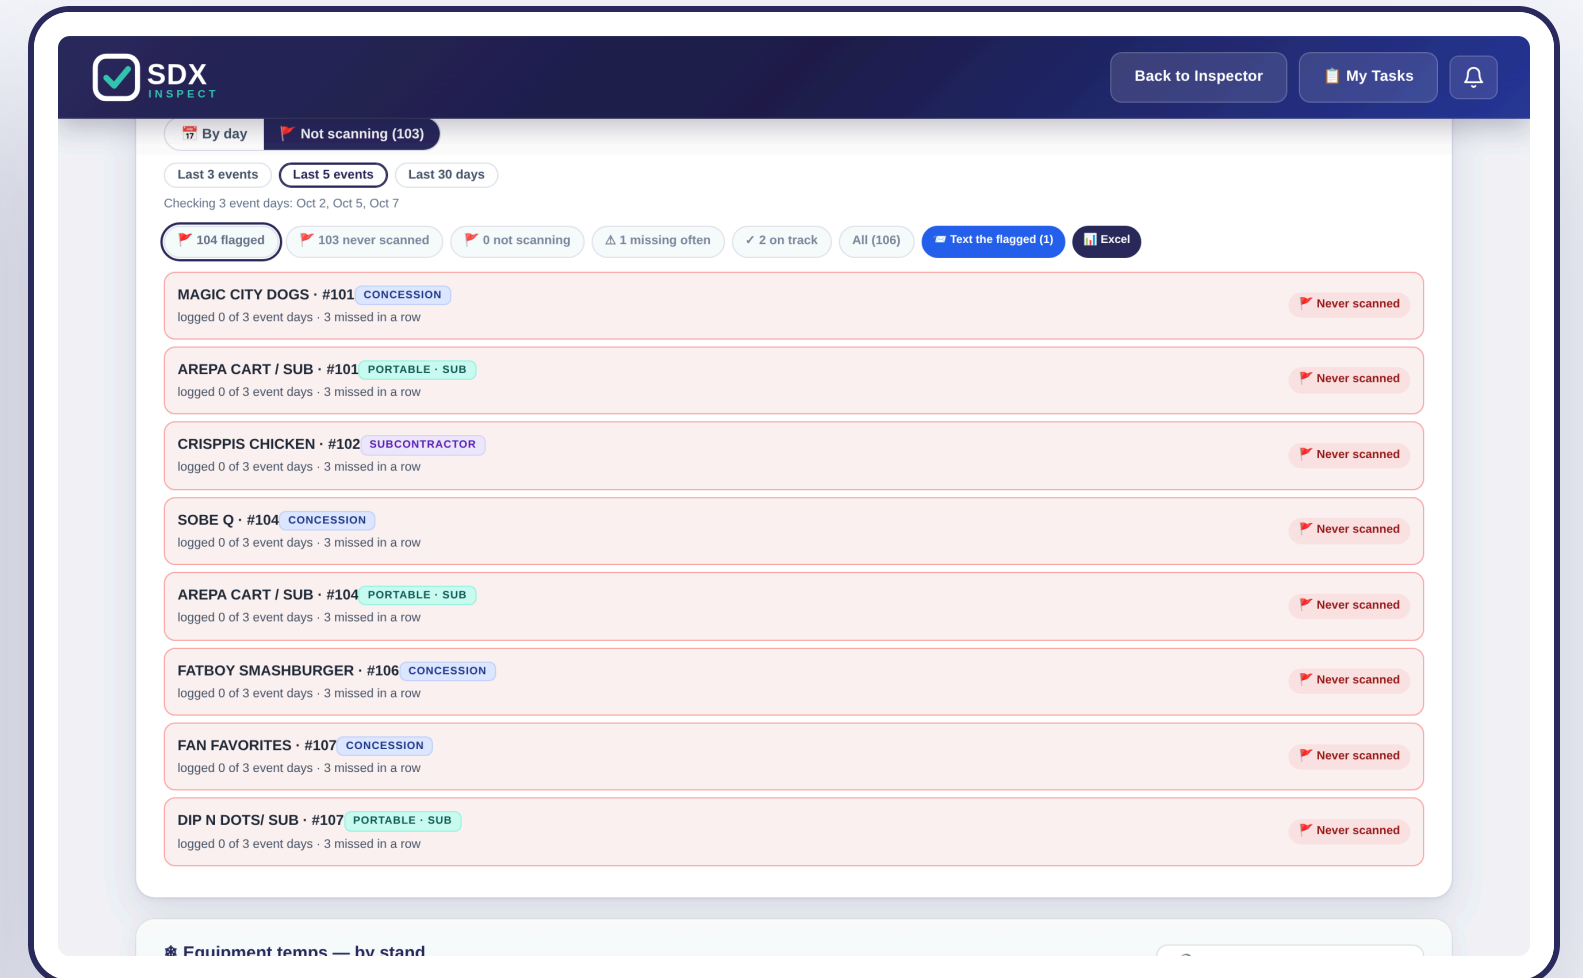

PROVE IT

Know what is open, and who didn't log

- ✓ **Follow-ups:** every open problem by stand, floor and crew. Remind the team in one message.
- ✓ **Who is not scanning:** stands that skipped their temp log, flagged, with one tap to text them.
- ✓ **Excel with BEFORE and AFTER photos** for audits, owners and billing.

Follow-ups

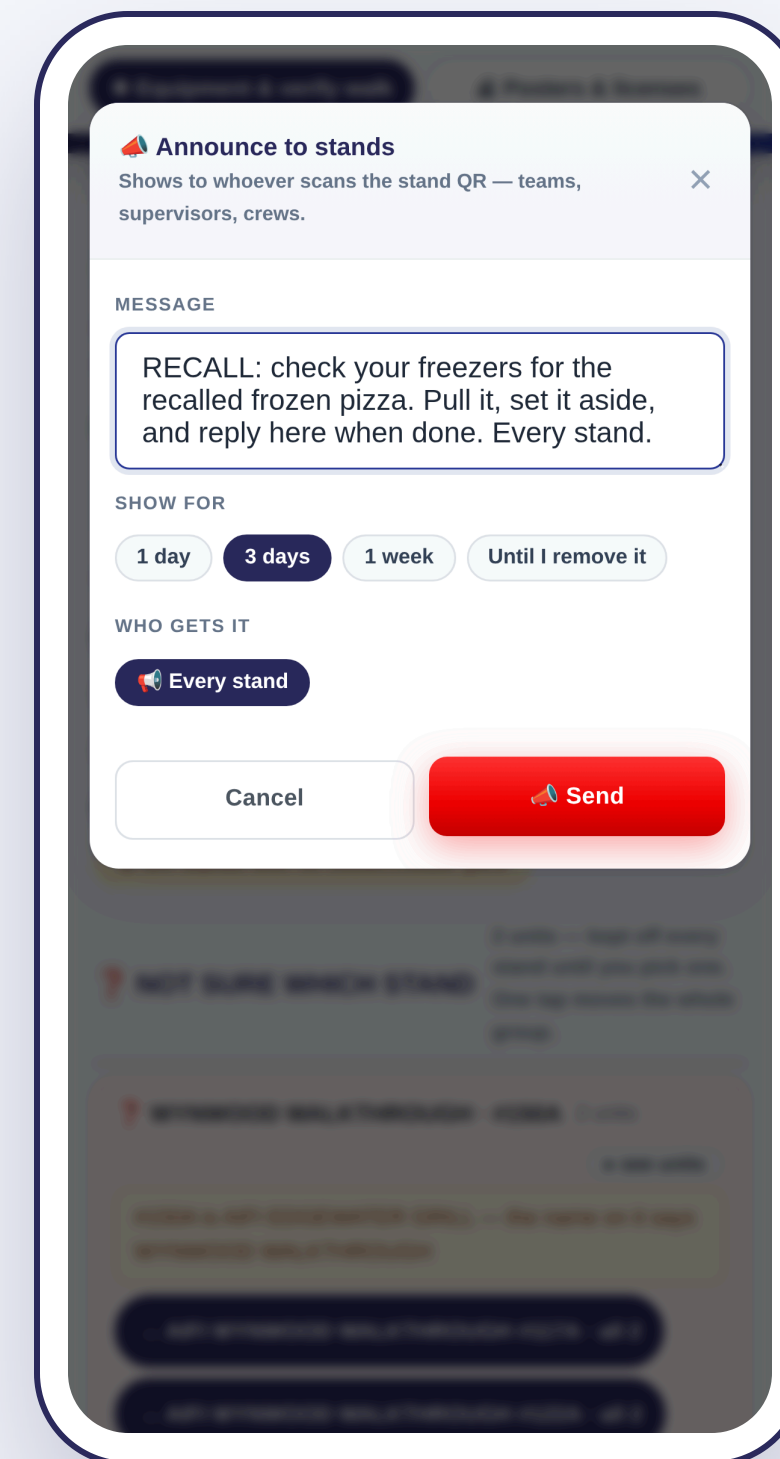

Who did not log temps

WHEN A RECALL HITS

Reach every stand in one message

- ✓ A recall drops at 7 PM on event day. **One announcement** goes to every stand, a floor or a type of stand.
- ✓ Teams see it **the moment they scan their poster.**
- ✓ Follow up stand by stand from the same app, with photos.

Announce to every stand

BUILT IN THE FIELD

Made by an inspector who walks 100+ stands every event day.

SDX Inspect is used every day at a large stadium in Miami. Every screen was shaped by real event days: rain, no signal, crowded stands, crews in three languages.

- ✓ Works on any phone, tablet or laptop. Installs like an app.
- ✓ Each venue has its own data. Export to Excel any time.

THE OFFER

Try it free for 30 days.

Week 1

We set up your stands and QR posters and train your team in 20 minutes.

Weeks 2-4

Run it on your event days or shifts. We are on call.

Day 30

We sit down with your own numbers: temps logged, problems found, fixed, and the proof.
