

Every stand checked. Every problem fixed. **With proof.**

The inspection app for stadiums, concession operators, restaurant groups and events.

Walk it

Full inspection on one phone. Bad temps flagged the second they are typed. Problems saved with what, where and a BEFORE photo.

Stands log their own temps

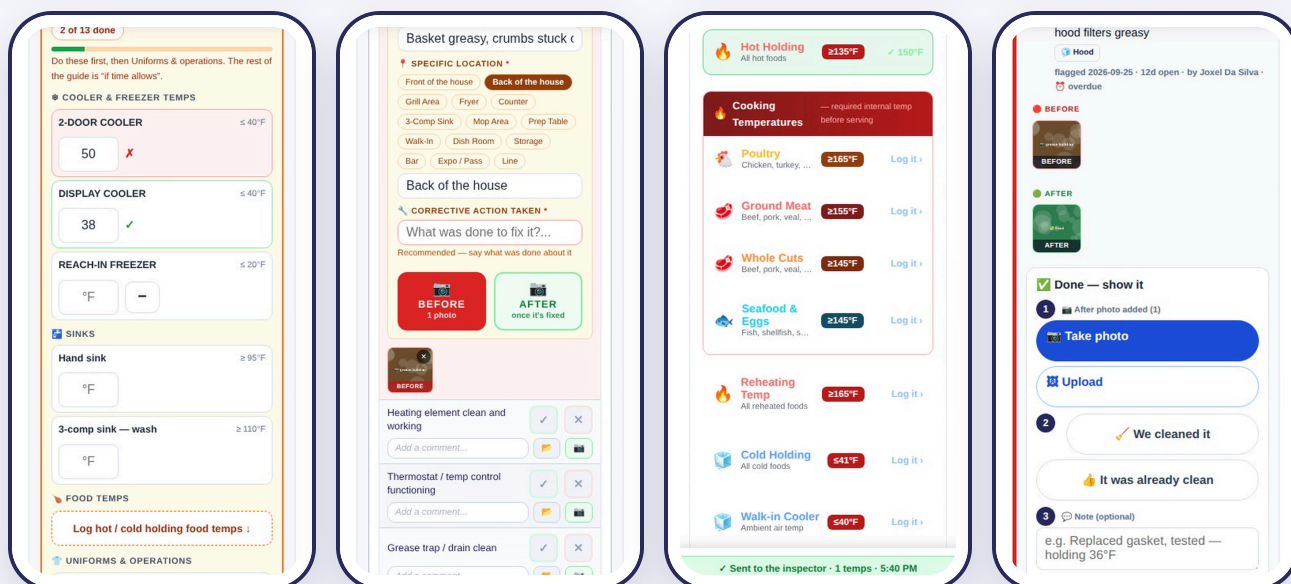

One QR poster per stand. No app, no password. A bad reading asks what they did about it and reaches the inspector right away.

Fix it

Crews get their own board from a link and close each problem with an AFTER photo.

Prove it

Every open problem by stand and crew, who did not log temps, and Excel with BEFORE and AFTER photos.

Free 30-day pilot

We set up your stands, train your team in 20 minutes, and review your own numbers on day 30.
